

Joint Information Center on COVID-19 for the State of Florida

FOR IMMEDIATE RELEASE April 13, 2020

**Contact: Joint Information Center on COVID-19 for the State of Florida (850) 815-4940,
ESF14@em.myflorida.com**

Florida Department of Health Updates New COVID-19 Cases, Announces Twenty-Nine Deaths Related to COVID-19, Evening Update ~20,394 positive cases in Florida residents and 625 positive cases in non-Florida residents~

TALLAHASSEE —To keep Florida residents and visitors safe, informed and aware about the status of the virus, the Florida Department of Health has launched a COVID-19 dashboard that will be updated twice daily. We also encourage all Floridians to take the COVID-19 Community Action Survey by visiting www.StrongerThanC19.com.

Today, as of 6 p.m., there are 21,019 total** Florida cases.

While Florida's testing has increased over the past week, the percent of those testing positive for COVID-19 overall is 11 percent. Of the 9,718 tests performed on April 12, there were 1,045 positive results, or 11 percent.

Twenty-nine people have died who tested positive for COVID-19 in Brevard, Broward, Citrus, Clay, Collier, Dade, Lee, Manatee, Palm Beach, Polk, Sarasota, St. Lucie and Suwannee counties.

New Florida cases include:

- 418 additional positive COVID-19 cases (359 Florida residents and 59 non-Florida residents) reported to the Florida Department of Health.
- There are currently 20,394 positive cases in Florida residents and 625 positive cases in non-Florida residents.

Florida recently partnered with private laboratories around the state to expand COVID-19 laboratory testing capacity. This partnership will increase the number of tests conducted each day and ensure Floridians receive the critical health information they need in a timely manner.

Expansion to private laboratories changes the COVID-19 testing landscape in Florida. Private laboratories are running tests as they receive swab samples from practitioners. Testing and reporting times vary among commercial and DOH laboratories. Demographic information may be updated during investigations. These twice daily reports reflect the state's efforts to accurately and transparently share information.

More information on a case-by-case basis can also be found [here](#).

Confirmed Cases in Florida Residents	20,394
Confirmed by DOH	2,339
Tested by private labs	18,055
