ATTACHMENT A: BIOMEDICAL WASTE TRAINING OUTLINE

ATTACHMENT B: BIOMEDICAL WASTE TRAINING ATTENDANCE

ATTACHMENT C: PLAN FOR TREATMENT OF BIOMEDICAL WASTE

Use of this plan format is voluntary and not required by the Department of Health. It is provided as a service to assist biomedical waste facilities in complying with the requirements of Chapter 64E-16, F.A.C.

I. DIRECTIONS FOR COMPLETING THE BIOMEDICAL WASTE PLAN

Blank 1: Enter the name of your facility.

Blank 2: Enter where you keep your employee training records.

Blank 3: List the items of biomedical waste that are produced in your facility and the location where each waste item is generated.

Blank 4: Enter the name of the manufacturer of your facility's red bags. This company must be on the Department of Health (DOH) list of compliant red bags (this list can be obtained from the following website: www.doh.state.fl.us/environment/community/biomedical/red_bags.htm) or from your DOH biomedical waste coordinator OR you must have results supplied by the bag manufacturer from an independent laboratory that indicate that your red bags meet the bag construction requirements of Chapter 64E-16, Florida Administrative Code (F.A.C.). If your facility does not use red bags, enter N/A.

Blank 5: Indicate where the documentation for the construction standards of your facility's red bags is kept. If your facility uses red bags that are included in the DOH list of compliant red bags, or if your facility does not use red bags, enter N/A.

Blank 6: Indicate where unused, red biomedical waste bags are kept in operational areas (not in stock or in central storage) so that working staff can get them quickly when they need them. If your facility does not use red bags, enter N/A.

Blank 7: Enter the place where your biomedical waste is stored and the method of restriction of this storage area. If your biomedical waste is picked up by a licensed biomedical waste transporter but you have no storage area, indicate your procedure for preparing your biomedical waste for pick-up. If you have no pick-up and no storage area, enter N/A.

Blank 8: Enter all the required information about your registered biomedical waste transporter. The website www.doh.state.fl.us/environment/community/biomedical/transporters.htm has a list of such transporters. If you do not use a transporter, enter N/A.

Blank 9: Enter the name(s) of the employee(s) designated to transport your facility's untreated biomedical waste to another facility. If your facility does not transport your own biomedical waste, enter N/A.

Blank 10: Enter the name of the facility to which your facility transports your own untreated biomedical waste. If your facility does not transport your own biomedical waste, enter N/A.

Blank 11: Describe the procedure and products your facility will use to decontaminate a spill or leak of biomedical waste.

Blank 12: Enter the required information about the registered biomedical waste transporter who will transport your biomedical waste on a contingency basis.

Blank 13: If personnel from your facility also work at a branch office of your facility, enter the name of the branch office. If you have no branch office, enter N/A.

Blank 14: Enter the street address, city, and state of the branch office named in (13). If you have no branch office, enter N/A.

Blank 15: Enter the weekdays the branch office named in (13) is open. If you have no branch office, enter N/A.

Blank 16: Enter the normal work hours for each day the branch office named in (13) is open. If you have no branch office, enter N/A.

Blank 17: Indicate where a copy of this biomedical waste operating plan will be kept in your facility.

Blank 18: Indicate where the current biomedical waste permit or exemption document will be kept in your facility.

Blank 19: Indicate where your facility will keep its current copy of the biomedical waste rules, Chapter 64E-16, F.A.C.

Blank 20: Indicate where your facility will keep copies of its biomedical waste inspections from at least the last three (3) years.

Blank 21: If your facility transports your own biomedical waste, indicate where your transport log is kept. If you do not transport your own biomedical waste, enter N/A.

Attachment A: Activities addressed should be those from Section III that are carried out in your facility.

Attachment B: Enter the required information to document training sessions.

Attachment C: To be completed only if your facility treats biomedical waste. If your facility has untreated biomedical waste removed by a registered transporter or you transport your own untreated waste, do not complete this attachment.

II. PURPOSE

The purpose of this Biomedical Waste Operating Plan is to provide guidance and describe requirements for the proper management of biomedical waste in our facility. Guidelines for management of biomedical waste are found in Chapter 64E-16, Florida Administrative Code (F.A.C.), and in section 381.0098, Florida Statutes.

III. TRAINING FOR PERSONNEL

Biomedical waste training will be scheduled as required by paragraph 64E-16.003(2)(a), F.A.C. Training sessions will detail compliance with this operating plan and with Chapter 64E-16, F.A.C. Training sessions will include all of the following activities that are carried out in our facility:

- ✍ Definition and Identification of Biomedical Waste
- ✍ Segregation
- ✍ Storage
- ✍ Labeling
- ✍ Transport
- ✍ Procedure for Decontaminating Biomedical Waste Spills
- ✍ Contingency Plan for Emergency Transport
- ✍ Procedure for Containment
- ✍ Treatment Method

Training for the activities that are carried out in our facility is outlined in Attachment A.

Our facility must maintain records of employee training. These records will be kept (2) _____

Training records will be kept for participants in all training sessions for a minimum of three (3) years and will be available for review by Department of Health (DOH) inspectors. An example of an attendance record is appended in Attachment B.

IV. DEFINITION, IDENTIFICATION, AND SEGREGATION OF BIOMEDICAL WASTE

Biomedical waste is any solid or liquid waste which may present a threat of infection to humans. Biomedical waste is further defined in subsection 64E-16.002(2), F.A.C.

Items of sharps and non-sharps biomedical waste generated in this facility and the locations at which they are generated are:

(3) _____

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

If biomedical waste is in a liquid or semi-solid form and aerosol formation is minimal, the waste may be disposed into a sanitary sewer system or into another system approved to receive such waste by the Department of Environmental Protection or the DOH.

V. CONTAINMENT

Red bags for containment of biomedical waste will comply with the required physical properties.

Our red bags are manufactured by

(4) _____

Our documentation of red bag construction standards is kept

(5) _____

Working staff can quickly get red bags at

(6) _____

Sharps will be placed into sharps containers at the point of origin.

Filled red bags and filled sharps containers will be sealed at the point of origin. Red bags, sharps containers, and outer containers of biomedical waste, when sealed, will not be reopened in this facility. Ruptured or leaking packages of biomedical waste will be placed into a larger container without disturbing the original seal.

VI. LABELING

All sealed biomedical waste red bags and sharps containers will be labeled with this facility's name and address prior to offsite transport. If a sealed red bag or sharps container is placed into a larger red bag prior to transport, placing the facility's name and address only on the exterior bag is sufficient.

Outer containers must be labeled with our transporter's name, address, registration number, and 24-hour phone number.

VII. STORAGE

When sealed, red bags, sharps containers, and outer containers will be stored in areas that are restricted through the use of locks, signs, or location. The 30-day storage time period will commence when the first non-sharps item of biomedical waste is placed into a red bag or sharps container, or when a sharps container that contains only sharps is sealed.

Indoor biomedical waste storage areas will be constructed of smooth, easily cleanable materials that are impervious to liquids. These areas will be regularly maintained in a sanitary condition. The storage area will be vermin/insect free. Outdoor storage areas also will be conspicuously marked with a six-inch international biological hazard symbol and will be secure from vandalism.

Biomedical waste will be stored and restricted in the following manner:

(7) _____

VIII. TRANSPORT

We will negotiate for the transport of biomedical waste only with a DOH-registered company. If we contract with such a company, we will have on file the pick-up receipts provided to us for the last three (3) years. Transport for our facility is provided by:

- a. The following registered biomedical waste transporter:

Company name (8) _____

Address _____

Phone _____

Registration number _____

Place pick-up receipts are kept _____

OR

- b. An employee of this facility who works under the following guidelines:

We will transport our own biomedical waste. For tracking purposes, we will maintain a log of all biomedical waste transported by any employee for the last three (3) years. The log will contain waste amounts, dates, and documentation that the waste was accepted by a permitted facility. Name of employee(s) who is(are) assigned transport duty:

(9) _____

Biomedical waste will be transported to:

(10) _____

IX. PROCEDURE FOR DECONTAMINATING BIOMEDICAL WASTE SPILLS

(11) _____

X. CONTINGENCY PLAN

If our registered biomedical waste transporter is unable to transport this facility's biomedical waste, or if we are unable temporarily to treat our own waste, then the following registered biomedical waste transporter will be contacted:

Company name (12) _____

Address _____

Phone _____

Registration number _____

XI. BRANCH OFFICES

The personnel at our facility work at the following branch offices during the days and times indicated:

- 1) Office name (13) _____
Office address (14) _____

Days of operation (15) _____
Hours of operation (16) _____

- 2) Office name (13) _____
Office address (14) _____

Days of operation (15) _____
Hours of operation (16) _____

XII. MISCELLANEOUS

For easy access by all of our staff, a copy of this biomedical waste operating plan will be kept in the following place:

(17) _____

The following items will be kept where indicated:

- a. Current DOH biomedical waste permit/ exemption document
(18) _____

- b. Current copy of Chapter 64E-16, F.A.C.
(19) _____

- c. Copies of biomedical waste inspection reports from last three (3) years
(20) _____

- d. Transport log
(21) _____

ATTACHMENT C: OPERATING PLAN FOR TREATMENT OF BIOMEDICAL WASTE

TABLE OF CONTENTS

- I. DIRECTIONS FOR COMPLETING THIS PLAN
- II. TREATMENT METHOD
- III. CONTINGENCY PLAN
- IV. MISCELLANEOUS

I. DIRECTIONS FOR COMPLETING THIS TREATMENT PLAN

Blank 1: If you treat your biomedical waste by steam autoclave, enter where you keep the written operating procedure for use of the autoclave. Otherwise enter N/A.

Blank 2: If you treat your biomedical waste by steam autoclave, enter where you keep your records of the autoclave preventive maintenance service. Otherwise enter N/A.

Blank 3: Enter where your facility will keep the records of the evaluation results for your steam autoclave. If your facility does not treat biomedical waste by steam autoclave, enter N/A.

Blank 4: Enter where your facility will keep the written log that describes use of the autoclave to treat your biomedical waste. If your facility does not use a steam autoclave to treat its own biomedical waste, enter N/A.

Blank 5: Enter the name of the alternative treatment method used at your facility to treat biomedical waste. If your facility does not treat biomedical waste by an alternative treatment method, enter N/A.

Blank 6: If your facility treats biomedical waste by an alternative treatment method that requires periodic maintenance, indicate where the maintenance records will be kept. If your facility does not utilize such an alternative treatment method, enter N/A.

Blank 7: Enter where your facility will keep the records of the evaluation results for the alternative treatment method you use to treat your biomedical waste. If the method is single-use or you do not use such a method, enter N/A.

Blank 8: If your facility treats biomedical waste by an approved alternative treatment method, indicate where you will keep copies of receipts for periodic purchase of components, ingredients, or supplies needed for operation of that method. If your facility does not treat biomedical waste by an alternative treatment method, enter N/A.

Blank 9: If your facility treats biomedical waste by an approved alternative treatment method, indicate where you will keep the treatment log for that method. If your facility does not treat biomedical waste by an alternative treatment method, enter N/A.

Blank 10: Enter the required information about the registered biomedical waste transporter who will transport your biomedical waste on a contingency basis.

Blank 11: Indicate where a copy of this operating plan will be kept in your facility.

II. TREATMENT METHOD

We will use the following method to treat biomedical waste at our facility (check the appropriate method):

- a. Incinerator c. Alternative Treatment Process
b. Steam Autoclave

a. Incinerator

Our incinerator will be operated and maintained in accordance with a Department of Environmental Protection permit.

b. Steam Autoclave

We will operate our autoclave so that adequate treatment of biomedical waste is achieved. A current, written operating procedure will be kept:

(1) _____

We will service our autoclave for preventive maintenance according to the manufacturer's specifications and will keep records of such service:

(2) _____

Our steam autoclave will be evaluated for effectiveness as required and the evaluation results will be kept:

(3) _____

We will maintain the required written log describing use of our autoclave. This log will be kept:

(4) _____

c. Alternative Treatment Method

We will treat our own biomedical waste at this facility using the following DOH approved alternative treatment method:

(5) _____

All components of this alternative treatment method will be operated and maintained according to the manufacturer's instructions. All maintenance records will be kept:

(6) _____

The alternative treatment method will be evaluated as required and the evaluation results will be kept:

(7) _____

We will keep copies of receipts for purchase of any components, ingredients, or supplies required for use of our alternative treatment method. Also, we will record in a treatment log the date, the length of time, and by whom the method was used. If the method is single-use, the length of time will not be recorded. Copies of purchase receipts will be kept:

(8) _____

Our treatment log will be stored:

(9) _____

III. CONTINGENCY PLAN

If we are unable temporarily to treat our own waste, then the following registered biomedical waste transporter will be contacted:

Company name (10) _____

Address _____

Phone _____

Registration number _____

IV. MISCELLANEOUS

For easy access by all of our staff, a copy of this operating plan will be kept in the following place:

(11) _____
