

Lee County

Mental Health

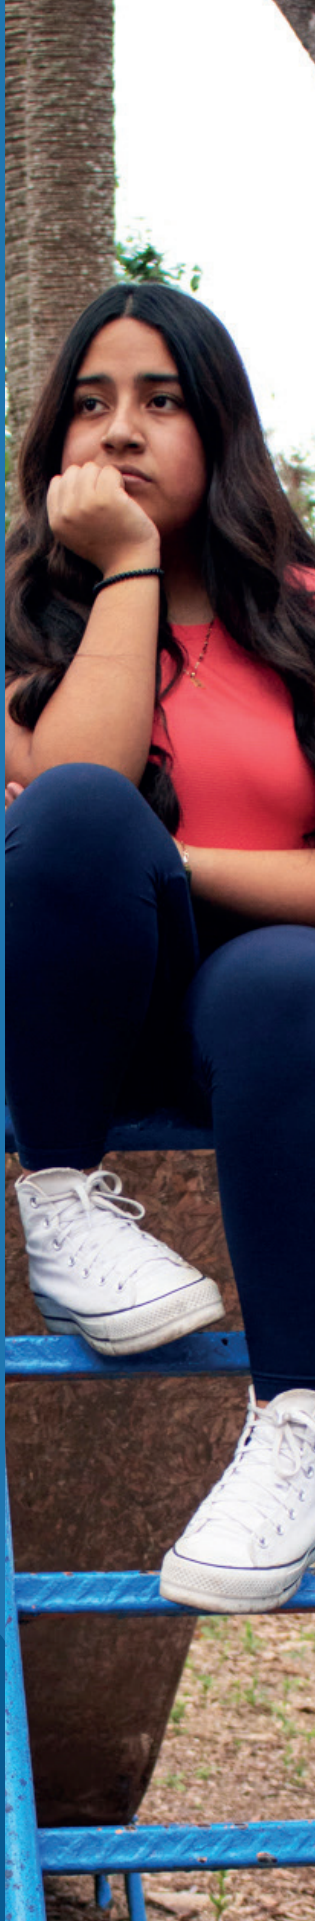

RESOURCE GUIDE

For far too long, there has been a stigma around mental health. At the Department of Health in Lee County we intend to educate and raise awareness of mental health disorders and resources.

We hope to work productively in supporting and empowering our residents, particularly young people in coping effectively with their mental health challenges.

This resource guide provides information on local and national organizations that provide mental health services in our community.

For emergency services call 911. Dial 988 to reach the Suicide and Crisis Lifeline.
